**Attachments:** CBD Comment on Indoxacarb.pdf

Hi Kris,

I wanted to follow up with you quickly about some comments we received from CBD for indoxacarb. It looks like they are very general comments related to ESA, cumulative uses, synergy, mixtures, and so on...but mostly ESA. I've attached the document. However, first I wanted to check with you to see if our branch has received similar comments from CBD that we can use for a consistent response. I was thinking that some of the RTC we used from Quizalofop recently for OGC might be useful for this. Please let me know your thoughts.

Best,  
Rebecca

Hi Kris,

The indoxacarb team (Frank, Chris and I) received comments from the Center for Conservation Biology for Indoxacarb RTC. It looks like they are very general comments related to ESA, cumulative uses, synergy, mixtures, and so on...but mostly ESA. I've attached the document. However, first I wanted to check with you to see if our branch has received similar comments from CBD that we can use for a consistent response. I was thinking that some of the RTC we used from Quizalofop recently for OGC might be useful for this. Please let me know your thoughts.

Rebecca
